

Step 1

Are you using the **LibreLink** app on your phone to scan your Libre sensor?

- YES – go to step 5
- NO – go to step 2

Step 2

Have you set up a **LibreView** account?

- YES – go to step 4
- NO – go to step 3

Step 3 Setting up a LibreView account

- Go to www.libreview.com
- Click the sign up button **(A)**
- Select 'LibreView Account' **(B)**
- Follow the on-screen instructions regarding country of residence, accepting the terms of use (user agreement and privacy policy), enter your name and date of birth, create a password and respond to the verification email sent to you by LibreView.
- You can now log-in with your email and password – go to STEP 4

Step 4 Uploading your reader data

When logged in, connect your Libre reader to your computer with the supplied USB cable (if you don't have one – you can pick one up at the diabetes department).

Click the green 'Upload' button **(C)** and follow the on-screen instructions to upload your Libre data.

IMPORTANT: You also need to link your LibreView account to the St Johns hospital account – go to **STEP 6** to do this now.

A One system | Consistent reports | Easy sharing

LibreView is a secure, cloud-based diabetes management system that gives healthcare professionals and patients clear, easy-to-understand reports from many popular glucose monitoring devices.

B Sign Up

Choose the type of account that you would like to sign up for. You cannot change this after your account has been created. Already have a LibreView account? [Log in](#)

LibreView Account

A personal account for patients who want to upload their meter data to view and print glucose reports from home. You also have the option to share your glucose data with healthcare professionals in a LibreView Practice.

LibreView Professional Account

For healthcare professionals who want to upload glucose monitoring devices from their patients and create reports. Professional accounts can also join a LibreView Practice to start sharing data with other healthcare professionals, and remote monitoring patients.

[Upload](#)

Step 5

If you have set your phone up to scan the sensor, please log in to www.LibreView.com (using the same email and password that you use on your LibreLink phone app).

Now move to STEP 6.

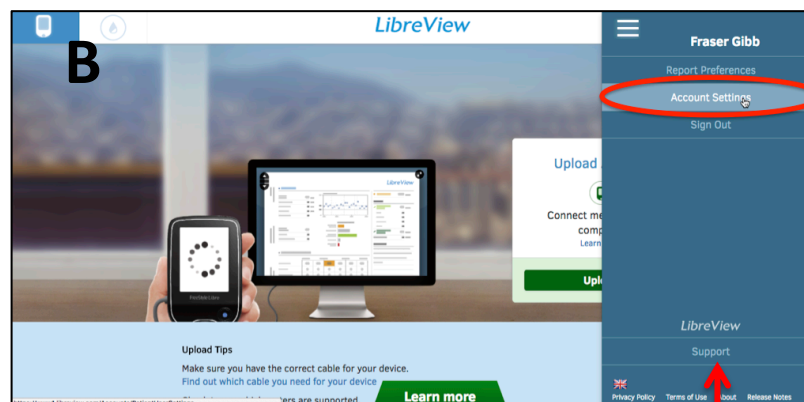

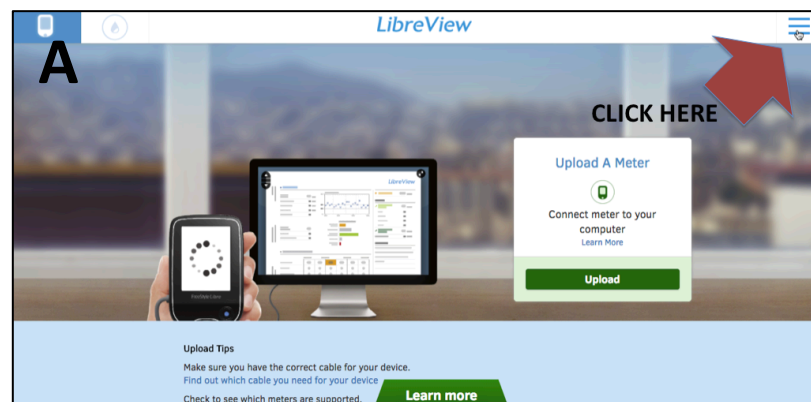

Step 6 Linking your LibreView account to the St Johns Diabetes Clinic

When logged in to your LibreView account click at the top right corner **(A)** and then open up 'Account Settings' **(B)**. Click the tab 'My practices' **(C)** and in the 'Link to a practice' box type in: **SJHdiabetes** then click 'Add'.

This will link your Libre account to our St Johns clinic account.

If you are only using your phone to scan the Libre sensor this is all you need to do.

IMPORTANT: If you are using a Libre reader (i.e. not using your phone to scan), upload your data as described in STEP 4.

If you are having trouble getting any of this to work, click the 'support' option which has troubleshooting information
